PROFILE

I'm a Full Stack Web & Agentic AI Developer skilled in building production-ready websites & AI Solutions using modern tools like Next.js, Tailwind CSS, TypeScript, Python, n8n, Retell.ai, Elevenlabs, and OPENAI SDK. I've delivered fast, scalable solutions across domains such as e-commerce, automation, chatbots, and more.

TOP PROJECTS

■ Restaurent System
Developed using Reactjs, Fastapi, n8n, OpenAI SDK

Overview:

AI-powered restaurant: QR signup, live menu, cart →order → kitchen → served.

Admin: Add/Delete items, sales analytics, staff mgmtt, feedback, customer details.

Automation (n8n): Follow-up emails, daily sales report, order confirmations.

■ AI Call Agent For GYM
Developed using Retell.ai & n8n

Overview:

Built a 24/7 human-like voice AI that answers gym calls, books appointments, collects name/email/fitness goals, sends confirmation emails, logs full transcript + summary to Google Sheets, and greets returning callers by name for personalized conversations. Zero human needed.

EDUCATION

2023 - 2025
GOVERNOR HOUSE

- Pursing Agentic AI Course from Governor House

2025
PRIVATE CANDIDATE

- Pursing 10th Class as a Private candidate

SKILLS

- HTML
- CSS
- JavaScript
